Subject: Newsletter

Club night on the Feb 26th featured a very interesting talk from our very own Mal Clark who despite various interjections from the audience enthralled all present with his anecdotes and memories of his racing and personal life. We've had several offers for his services as an after dinner speaker and will of course pass them on to his manager and wife Pam.

Thanks Mal.

We now have a representative from Club Lotus in Targa Tasmania; the famous waving navigator Avis Buckland will be showing the Aussies how. She had to find a responsible member of the committee to sign her Australian Competition Licence Application but in the end had to settle for Ken Woodburn. Are the Aussies ready for her? Autographed copies of the Video will be available.

Best of luck from us all Avis.

New members - it's a welcome from the club to Stuart Smith from Titirangi whose Series II Elite has just arrived from England. He tells us that it's going in true Lotus style up and down the driveway with the occasional bit falling off.

Look forward to seeing both you and the car soon Stuart

There are now 2 yellow Elise's on Auckland's roads, Ken Moffatt has brought NZ's first Elise up from Dunedin, is Auckland's thin blue line ready for two at the same time? It should help to fill LTSA's coffers somewhat; they must be good for at least a grand apiece in speeding fines.

Club member Bill Blackman is in the final stages of repairing a rather badly damaged Excel, seen at KW Historics it would prove to be very difficult to detect from original, it always nice to see another Lotus back in use.

Nice one Bill

Another M100 Elan is rumoured to be on it's way from England, it's a very unusual one, it's actually got brakes! I'm looking forward to seeing this one.

Dave Christopher
